10. What is the scope of services your team will be able to provide? (Check all that apply).

- Animal Sheltering
- Veterinary Medical Clinical Services
- Animal Rescue*
 - Large Animal
 - Small Animal
 - Large and Small Animal
- Disease Outbreak/Depopulation
- Other (please describe below)

For each service, please detail below the number and type of animals your CART can provide services for. Please also estimate the number of days/weeks that your CART would be able to offer these services before requiring additional assistance.

*(If your team's scope of services include animal rescue, please offer as much detail as possible about the specific type of rescue, number of team members who would be involved in rescue activities and the experience, qualifications and training those team members have in this area.)

We can provide services for about 200 animals; cats, dogs, birds and or small to medium animals. We have been prepared to try to offer these services for about seven days.

Our Hampton Animal Control has offered some services to us for local rescue.,

They have the knowledge and experience for animal rescue. We have 4 team members that can help as they have had animal rescue experience. Animal Aide had also offered their services.

11. What type of services is your team NOT able to provide? (Please provide as much detail as in regard to either the type of service as listed in question #10 that your CART would not be able to provide or type of animals your CART would not be able to provide services for.)

We would not be able to provide services for farm animals due to space. Nor can we offer shelter to reptiles, such as snakes.
